Subject: Visiting Toronto

Hello Dror,

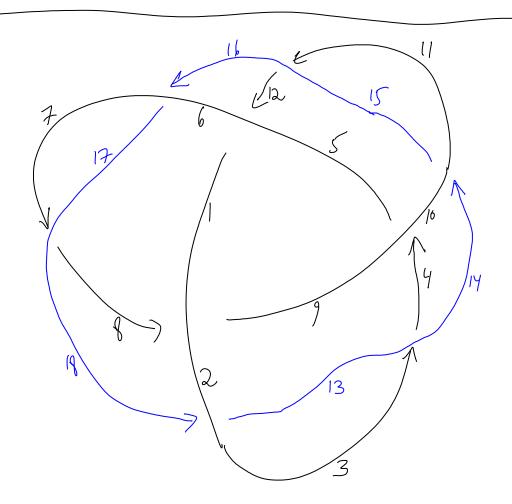

[...]

I also wanted to mention this amazing Seifert surface in downtown Philadelphia that I recently saw:

http://www.flickr.com/photos/29923994@N03/3105524757/in/photostream/

It's called "Triune" by Robert Engman. I would add it to the Knot Atlas, but I haven't yet located the link in the tables. (It's the trefoil with a core of one solid torus added.)

Best, Dylan
