

## The KBH Relation(s)

January-10-13  
3:41 AM

Aside -

In the KBH paper, find a place to say

"Knots are composite objects"

& perhaps also insert the Peter Pan picture.

---

Aside - Perhaps I should show the identification

$$\text{tangles} = T_2 \times T_1$$

with more detail.

---

The Main Relation.

Continues 2012-11
