

A v -> v&w map

November-08-14 5:06 PM

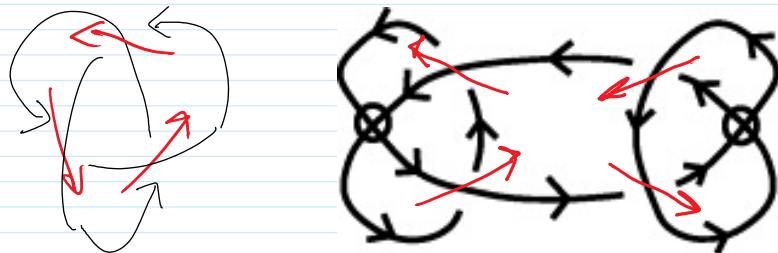

Note: only the red strand needs to be "w"!

There has to be a cleaner description!

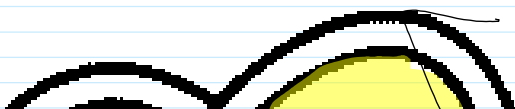

Examples.

Question. Why does it "split" on \mathbb{K}^u ?

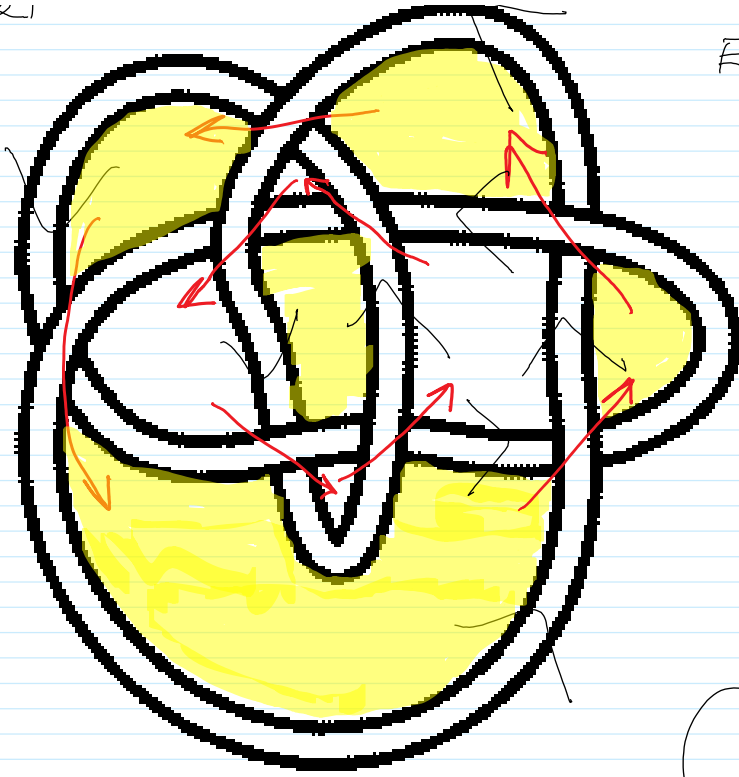

(For braid closures it is easy)

\mathbb{Q}_1 :

Equally well, why does it

KL

Equally well, why does it
plane curves? ₀

Plane-curve Kishino;
(splits)
