

Setting up Surface Pro 5

June 21, 2019 1:11 PM

June 22, 2019:

1. Normal startup dialogs (10 minutes)
2. Run windows update. (including restart, 35 minutes)
3. Install HP Bluetooth mouse. (3 minutes).
4. Install Chrome. (5 minutes)
5. Unpin Edge.
6. Install FreeFileSync.
7. Connect to SP4 (use Microsoft account credentials on local network!)
8. On SP4: Share C:\drorbn.
9. On SP5: Sync SP4:C:\drorbn to C:\drorbn (3 hours, half done).
10. Rename SP5 to Dror-SP5.
11. Restart.
12. Sync Backup:/drorbn to C:\drorbn (another 30 minutes).
13. Pin drorbn to quick access.

June 23, 2019:

14. Uninstall built-in Office.
15. Install UofT Office.
16. Set up outlook for ugchair (fail).
17. Set up Outlook for notes/Outlook.pst.
18. Set up Outlook for ugchair. Fuck that was hell! 2-3 hours.
19. Download Mathematica from the Wolfram User Portal. (20 minutes)
20. Clean the taskbar and create a second desktop.
21. Install Mathematica.
22. Rescale display to 175%.
23. Backup SP4 again.
