  "TitleNotes" →  
    "I had to be back home early so I had to pick a short and near ride. Yet it  
    was fun! The most interesting sight along the way was the lineup to the  
    vaccine, near Jane and Finch. About 500m long! Yet quiet and orderly.  
<p>(When I got my first dose a couple of weeks earlier there was no lineup  
    at all. Maybe I was lucky. Maybe I fell into the \"older\" category  
    rather than the \"higher risk area\" category. Maybe downtown gets  
    better treatment than Jane and Finch. Maybe Jane and Finch people  
    take the virus more seriously, so more of them come. You choose).",
