

The Cast According to Zsuzsi

May-18-13
10:42 AM

explained in 6.5

$$wTF^r = \text{CA} \left\langle \begin{array}{c} \nearrow \\ \nwarrow \end{array}, \begin{array}{c} \nearrow \\ \swarrow \end{array}, \bullet, \nearrow, \nwarrow \right\rangle \mid \begin{array}{l} \text{w-relations as in} \\ \text{Section 6.1.2} \end{array} \mid \begin{array}{l} \text{w-operations as} \\ \text{in Section 6.1.3} \end{array} \right\rangle.$$

Fuse:

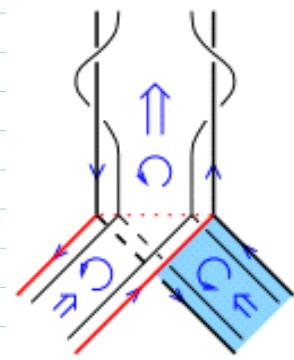

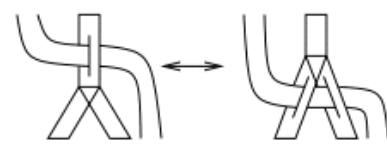

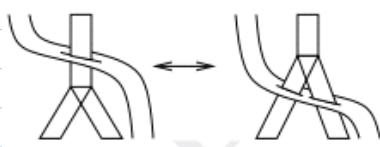

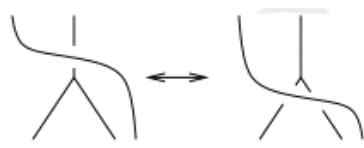

Split:

CP:

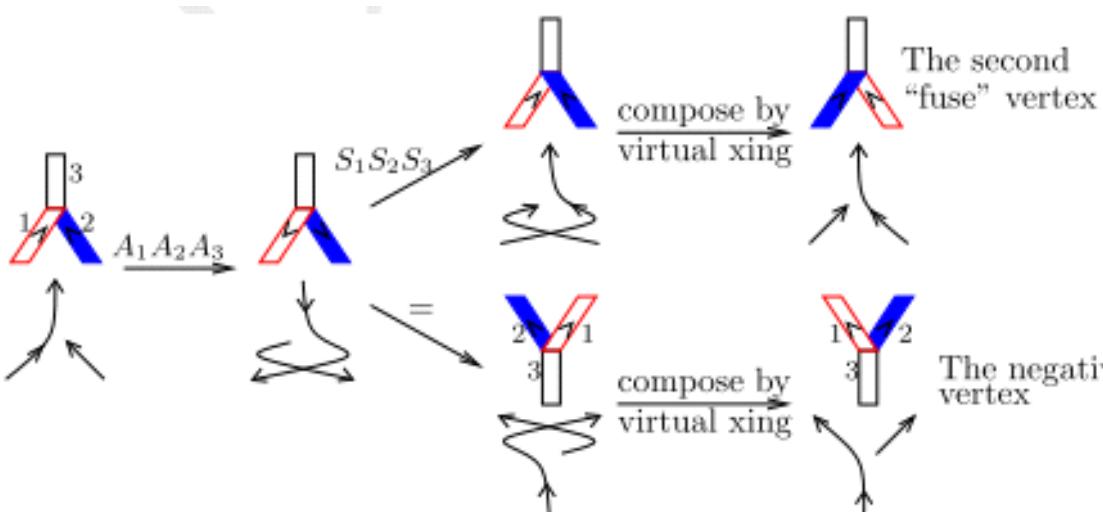

$$\begin{array}{ccc} \begin{array}{c} \bullet \\ \hline \top \end{array} & \leftrightarrow & \begin{array}{c} \bullet \\ \hline \bot \end{array} \end{array}, \text{ but } \begin{array}{ccc} \begin{array}{c} \bullet \\ \hline \top \end{array} & * & \begin{array}{c} \bullet \\ \hline \bot \end{array} \end{array}.$$

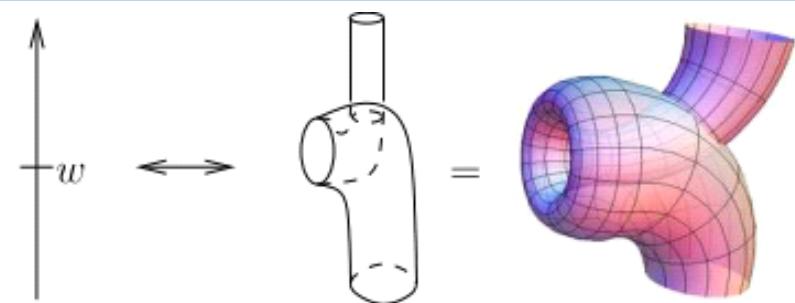

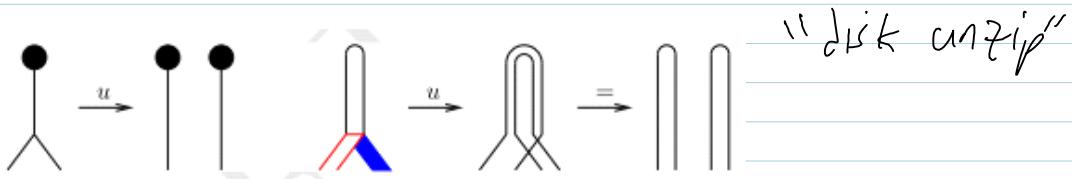

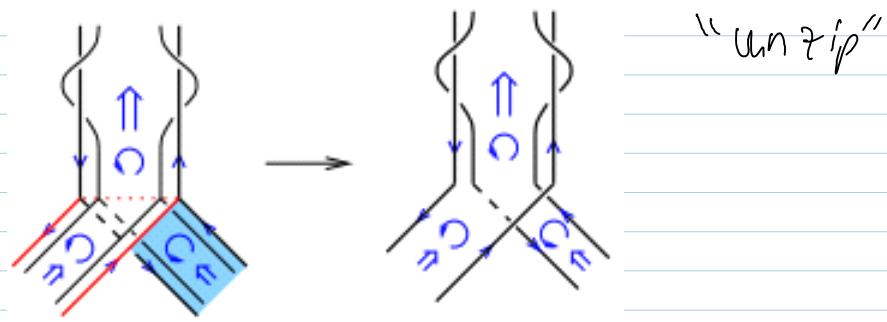

$$\begin{array}{ccc} \begin{array}{c} \top \\ \hline \top \end{array} & \leftrightarrow & \begin{array}{c} \top \\ \hline \bot \end{array} \end{array}, \text{ but } \begin{array}{ccc} \begin{array}{c} \top \\ \hline \top \end{array} & * & \begin{array}{c} \top \\ \hline \bot \end{array} \end{array}.$$

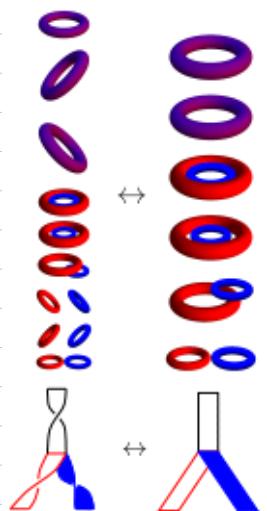

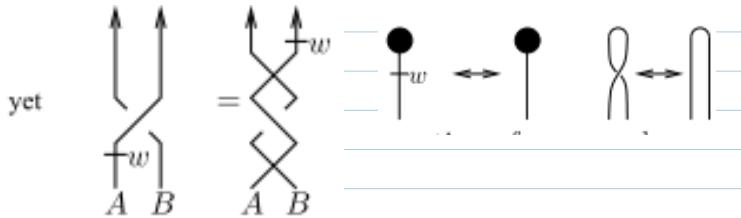

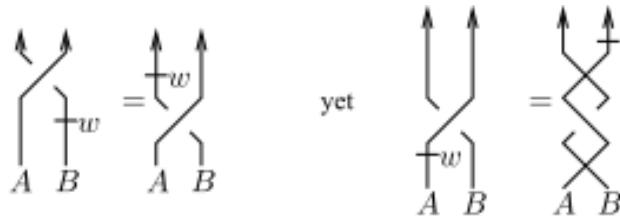

S_6 : reverse both orientations

A_C : Reverse only 1D orientation

" w " is when there
are no waves,

$$sKG \xrightarrow{Z^u} \mathcal{A}^u$$

$$\downarrow a \qquad \downarrow \alpha$$

$$wTF \xrightarrow{Z^w} \mathcal{A}^w$$

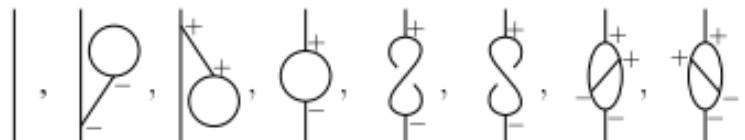

$$a : u \rightarrow w$$

$$\begin{array}{c} \nearrow \\ \text{etc.} \end{array}$$

Now u :

$$\gamma \nearrow \rightarrow e \nearrow \rightarrow u_e(\gamma)$$

generators of sKG :

Should we call this structure "insertion algebra"?
