Questions for Philippe Humbert

April-30-13   8:14 AM

- A topological understanding of all relations.
- A derivation of the usual 4T from these toric relations.
- Find the right "projectivization" setup for this story.
- A true understanding of the KZB connection. Does it have a QFT origin?
- How big is A(genus 1)? Is it the same as some "ordinary" A spaces?
- Does A(genus 1 braids) embed in A(genus 1)?
