# Some Dimensions of Arrow Diagram Spaces

By Dror Bar-Natan; with some code borrowed from a joint project with Louis Leung, Arrow\_Diagrams\_and\_gl (N).

Pensieve Header: We compute some  $\mathcal{A}^v$  and  $\mathcal{A}^w$  dimensions in low degrees.

Note - the "mat" part should be merged in all dimension programs, and updated using "Dispatch".

## Program

### Diagrams

```
SetAttributes[Diag, Orderless];
Place[{ar}, {i_, j_}] := {Diag[ar[i, j]], Diag[ar[j, i]]};
