

Matemale-1804 Overall Sketch

February 11, 2018 11:40 AM

1. "Ugly and hard" show, tabulated results.
(About 15 minutes. Front page and back pages).
2. Topological introduction.
(The rest of the first hour and the rest of the front page).
3. The Alexander example.
(Page 2 and hour 2).
4. SL_2 at $\epsilon=0$.
(Page 3 and hour 3)
5. CU And QU and all that.
(Pages 4-5 and hours 4-5).
6. Some exponential-time abstractions (expansions and all).
(Another 3 hours...)
